### Placement Procedure:

The Placement Cell works constantly to make tie-ups with small, middle and large scale companies for placements of student. The Cell not only provides career opportunities to students but also brings to the students opportunities for internship, fellowship and campus ambassadorship.

#### **Personality and Soft Skills Development**

We take pride in mentioning that we trained students not only in hard skills (subject knowledge) but also in soft skills (personality development, communication skills and so on). We provide proper feedback to the students related to their aptitude, interpersonal relationship characteristics, EQ etc.

#### **Test and Mock Interviews:**

We take weekly/fortnightly test on completed topics and prepare our students for an interview after successful completion of course by conducting final test and revision.

Finally, our **mock interviews** are the ultimate. We conduct such interviews of the students. This is followed by feedback session where we point out areas of improvement such as Body language, etiquette, communication skills, subject knowledge, general knowledge etc

After successfully completing the course our placement cell provides placement assistance to candidates in resume building, arranging interviews and participants get the opportunity in the IT companies, Manufacturing industry, Government Sector and Staffing/3rd party. Like, HCL Axon, TCS, Accenture, IBM, Dabur, ITC, Reliance group, NTPC, Indian Railway, and Hindustan Petroleum etc.

We have excellent track record of placements. Our students placed in MNCs, IT Sector, small and medium enterprises. Placement done across technologies like SAP, Oracle Apps, .Net, Java, PHP, Hadoop, Linux etc. Some of the reputed companies where our students got placed:
